THE EZRA CLINIC

PERIOCULAR FILLER MASTERCLASS

SUNDAY 27th OCTOBER 2024

The tear trough groove is one of the most aesthetically important areas of the face. Effective treatment of the tear trough can give spectacular results, but this area is also the most technically difficult to treat effectively. The thinness of the tissues under the eyes means that this is a very unforgiving location to treat. Even small volumes of filler can appear lumpy, irregular and prone to swelling. It also carries the small but real risks of blindness from vascular occlusion or retrobulbar haemorrhage.

Other key applications of filler to the Brow and temples can also be very important in restoring periocular volume and enhancing results.

THE EZRA CLINIC

📍 **NEO Health**
152 Harley Street,
London, W1G 7LH

💬 @eyesbyeza

Join us for a full day course at our Harley Street clinic, where we discuss the lessons learned from unique expertise in treating thousands of patients.

The course includes an in depth understanding of the anatomy of the tear trough, patient and filler selection, recognising and treating complications and the use of hyalase therapy in this area. With just ten delegates per course, it's a unique opportunity to learn from oculoplastic surgeons, Mr Daniel Ezra and Miss Caroline Wilde.

MR DANIEL EZRA

MA(Cantab) MMedEd MD (Cantab)
FRCS(G) FRCOphth FHEA

Daniel Ezra is an award winning Oculofacial Plastic Surgeon based in London. He is widely recognised as a leading authority on aesthetic treatments around the eyes. He runs a busy private clinic on the world-renowned Harley Street, which has a strong international referral base, treating patients from all over the world and providing the highest standards of surgical and non-surgical aesthetic treatments. He specialises in all in all aspects of aesthetic facial surgery surrounding the eyes, particularly blepharoplasty.

MISS CAROLINE WILDE

MbChB MRes FRCOphth

Caroline Wilde is a Consultant Ophthalmic and Oculoplastic Surgeon, specialising in blepharoplasty surgery, eyelid surgery and advanced facial aesthetics. After completing seven years of Ophthalmology training and two fellowships in Oculoplastic surgery at the renowned Moorfields Eye Hospital, she was invited by her mentor, Daniel Ezra, to join his distinguished Harley Street team. Amongst her specialist interests are tear trough fillers and the management of their complications.
